

REPUBLIC IS PROCLAIMED IN PORTUGAL

KING MANUEL AND ROYAL FAMILY HAVE FLED FROM MOB

SLEUTHS ON NEW CLUE IN THE SOUTH

Police May Be Close on the Dynamiters' Trail in Los Angeles

Secret Conference of the Man-Hunters Held; Another Body Dug Out

SAN FRANCISCO, Oct. 5.—In a report submitted to Captain of Detective Wall today by Police Sergeant Stephen Bunner, especially detailed to work on the Los Angeles dynamiting case, Bunner declared that he believed he had identified the member of the trio of dynamite purchasers who gave the name of Wm. Morris.

Bunner reported that a man who answered the description of Wm. Morris was a miner of Forrest Hill, Placer county.

According to Bunner, this man was born in Towle Valley, of a Mexican mother. He is said to have acquired expert knowledge of explosives in his work as a miner. He was known in this city, having worked for some time on the recently completed customs house.

Hot on Trail

LOS ANGELES, Oct. 5.—Detective William J. Burns and two assistants from the San Francisco police department, Ryan and Bunner, arrived here today from the north to take up the search for the dynamite conspirators from this end.

Bu has an office here but he did not appear there at all. Instead he went immediately into consultation with the Mayor and the committee which is investigating the disaster while the two San Francisco sleuths reported a Captain Flannery, head of the Los Angeles detective bureau.

Secrecy Maintained

Great secrecy is maintained regarding the movements not only of the northern detectives but also of the local men who have been working on the case at this end. But it is certain that Bu's brought with him information that has stirred the entire department to greater efforts.

Immediately after the arrival of the San Francisco men all the local detectives were called in. There, with Captain Flannery, held a council of war with the northern men-hunters and after ward orders were issued and the entire working force of the local bureau were hurried out.

Second Clue Found

Burns did not appear at the police station. Chief of Police Galloway left headquarters upon the arrival of the trio from the north and it is supposed that he met Burns when the latter went to the conference with Mayor Alexander and the members of the investigating committee.

Nothing was given out regarding the conference but in view of the statements that a second clue had been discovered here equal in importance and interest to the one that discovered in San Francisco led those who are following the case to believe today that Burns and the two members of the San Francisco department had been summoned here to take up the trail of the dynamiters here.

Find Another Body

One more body was found in the ruins of the Times building today. It was identified as that of Grant Moe, a carpenter from the city. The body was in such better condition than those unearthed heretofore. Identification was easy, the features being readily recognized by former fellow workers who

BABY DIES FOR WANT OF CARE

Holy Rollers Refuse to Allow Physician to Attend the Little Girl.

Death Follows Two Weeks of Suffering From Convulsions.

After having lain in an old-fashioned cradle for more than two weeks, suffering from convulsions, 2-year-old Marie Jamson, daughter of Joseph E. Jamson of 583 East Sixteenth street, died last night without having received the attentions of a physician during her illness, which is believed to have resulted from the eating of green pears.

The child was ill for almost two weeks with what is believed to have been probable poisoning by those who visited the home during the period. According to statements made by the parents this morning they do not believe in medical administration in time of sickness, they being members of a sect commonly known as Holy Rollers. Neighbors say that during the illness of the child they heard moanings emanating from the small cottage in which the family live. Numerous visitors called at the place daily and prayers were offered for the reclamation of the infant spirit, all in vain.

BLAMES THE LORD.

"As the Lord hath given, so hath He taken away," explained the father this morning as the family, which consists of the mother and four other children, stood about the little crib in the living room of the home where the body of pretty Marie Jamson lay cold in death.

"We do not believe in the services of a physician," further explained the parent, who is a tinner by trade. "There is only one who can heal wounds and cure illness. It was His desire that the little one be taken from us, and we bow to His will."

Neighbors notified the coroner's office shortly after 8 o'clock last night that the child had died without medical attention. When Deputy Coroner Bert Sargent called at the house the mother protested against the removal of the child, desiring that it be left until morning. Throughout the night a large number of members of the Holy Rollers who hold regular meetings at a room in Franklin street, gathered about the infant remains offering prayers and condolence.

CANNOT PROSECUTE.

In the neighborhood where the Jamson family live are several other families who are members of the religious sect known as the Holy Rollers. In several other instances similar deaths have been reported to the authorities but in each case they have failed to obtain conviction.

Government Troops Desert to Revolutionists

MANUEL II, King of Portugal, who is only 21 years of age, has been forced to flee his kingdom. This is the latest photograph of the King and his mother, who has been his mentor in affairs of state. She perpetuated many of the acts which led to the assassination of the King's father.

ENGLAND SENDS WAR VESSELS TO PROTECT ROYALTY FROM MOB

Big Fight in the Streets Between Troops and the Revolutionists; News Meager, as All Wires Are Cut

Believed That Announcement of New Government Is Soon to Be Officially Announced

LONDON, OCT. 5, 8:22 P. M. — THE FOREIGN OFFICE HAS JUST RECEIVED A TELEGRAM FROM THE BRITISH MINISTER AT LISBON DECLARING THAT A REPUBLIC HAS BEEN PROCLAIMED IN PORTUGAL.

MADRID, October 5.—Advices received tonight from Lisbon state:

"The combat continues in the streets. "Queen Mother Amelia has fled to the royal palace at Cintra, the summer residence of the Queen Dowager Maria Pia, 17 miles from Lisbon. "King Manuel has found refuge on a warship."

Big Battle Now in Progress on Streets

BADAJOS, Spain, Oct. 5.—A few messages which had reached the frontier today from correspondents in Portugal had been mutilated by censorship. It seems certain from them, however, that a battle was in progress and that a large portion of the Lisbon garrison had joined with the revolutionists.

LISBON, Oct. 5.—At 8 o'clock this morning troops faithful to the government, who had been assembled in the Place Dom Pedro, made common cause with the revolutionists and returned to their barracks.

A multitude in the streets applauded the desertion, crying "Long Live the Republic!"

King Seeks Refuge on War Vessel

PARIS, Oct. 5.—It was stated at the Brazilian legation here today that King Manuel had taken refuge on the Brazilian battleship Sao Paulo.

The Temps understands that King Manuel has embarked on an English warship.

Republicans Defeated by Loyal Troops

PISA, Italy, Oct. 5.—The Portuguese legation here, while in receipt of no official advices, understands that faithful troops of the royal palace had succeeded in repulsing the Republicans up to 3 o'clock this morning.

All Wires Cut by the Revolutionists

MADRID, Oct. 5.—The Spanish telegraphic authorities announced today that they were trying to communicate by wireles; with the British fleet supposed to be off Lisbon or near the Portuguese or Spanish coast.

There has been no communication between Madrid and the Portuguese capital since Tuesday morning. The only news of the revolution came by wireless from Santander.

It is believed that the revolutionists have cut the tel

Bercovich Brothers Lease Large Building Formerly Used by the Union National Bank

The building owned by the Adams estate at the northwest corner of Broadway and Twelfth street, the ground floor of which was formerly occupied by the Union National and the Farmers and Merchants' Savings Banks has been leased in its entirety to Bert and William Bercovich, cigar merchants, who already held leases on the southwest and southeast corners of the same thoroughfares.

The papers assigning the lease to the Bercovichs were signed by Edison F. Adams, John Charles Adams and Thomas Platter this morning.

FIFTEEN-YEAR LEASE.

The lease runs for fifteen years and the total rentals will amount to between \$300,000 and \$400,000.

The legal negotiations were conducted by M. S. Hamilton, on behalf of Edison F. Adams and his associates, and by Philip M. Walsh for the lessees.

The lessees intend to renovate and remodel the entire structure, which is a three-story building. Plans have already been drawn for the purpose by Architect Walter J. Mathews. The whole building will be modernized. The ground floor will be subdivided into stores, strictly

modern in every particular, and the upper floors will be arranged for first class offices.

WILL SPEND \$45,000

In the improvement of the building the Bercovich brothers contemplate spending approximately \$45,000.

The lease puts these merchants in control of three of the four corners at the intersection of Twelfth and Broadway, the two principal thoroughfares in the retail business district of Oakland.

The reconstruction of the building just leased will proceed at once.

Woman on Stairs Is Fatally Hurt by Auto

SAN FRANCISCO, Oct. 5.—Standing three steps from the sidewalk on the stairs of the home of a friend at McAllister and Baker streets at 10 o'clock this morning Mrs. J. Bloom of 1694 Hayes street was fatally injured by an automobile which skidded around a corner and partly climbed the stairway at almost the same moment as a fire broke out in the woman's home, doing serious

injuries, and grave fears are entertained for her recovery. At the same time as the accident occurred a fire broke out in the Bloom street home and was put out with a great deal of difficulty. A daughter, Miss Bloom, was in a hysterical state as the result of the excitement of the fire when she was notified of her mother's light and rushed to the hospital. Checkman was booked at the Park station for battery.

BOYS RUN DOWN

Three little boys driving a delivery wagon along Baker street near McAllister this morning were run down by an automobile driven by Mrs. Linz, of 128 Eighth avenue, and caused the running away of the horse, the two vehicles having become telescoped, and the frightened animal endeavoring to drag them both in his mad flight. After being carried along for two blocks the three lads, Raymond Newford of 545 Divisadero street, Joseph Klake of 443 Broadway street and Harold Burns of 922 Broadway street, were thrown to the pavement.

Newford sustained a broken ankle, Klake a fractured skull and Burns a fractured skull and internal in-

juries, and grave fears are entertained for her recovery.

At the same time as the accident occurred a fire broke out in the Bloom street home and was put out with a great deal of difficulty. A daughter, Miss Bloom, was in a hysterical state as the result of the excitement of the fire when she was notified of her mother's light and rushed to the hospital. Checkman was booked at the Park station for battery.

AVIATOR HURT IN FALL FROM CLOUDS

Leon Morane Suffers Broken Leg and Brother Fractures Skull in Accident

BOISSY, France, Oct. 5.—Leon Morane, who started today for Clermont-Ferrand, in an attempt to win the Michelin aviator prize, fell here and sustained a broken leg.

His brother, Robert, who was a passenger, received a fractured skull.

La Follette Rallies After His Operation

Senator Is Reported as "Doing Nicely" with Everything in His Favor.

ROCHESTER, Minn., Oct. 5.—According to Dr. Philip Fox, Senator La Follette's physician, the Senator, who was operated on yesterday, is "doing nicely."

"We are much elated at Senator La Follette's condition this morning," said Dr. Fox.

"He had a good sleep after midnight and is feeling fine today. His pulse and temperature are normal and we apprehend nothing serious. Everything looks favorable today."

FLAG OF REPUBLIC NOW WAVES FROM ROYAL STANDARD OF PALACE IN LISBON

KING MANUEL FLEES TO FRIENDLY NATION

England Sends Warships to Protect Royal Family; Big Battle Now on in Streets of Lisbon

(Continued from Page 1)

graph wires with the intention of restoring them only when they are prepared to announce to the world that a republic has been proclaimed.

Intense Interest Felt in Rome

ROME, Oct. 5.—Grave apprehension is felt here over the news from Portugal. Private reports are that the royal family has been imprisoned and a republic proclaimed.

Interest here is intense, especially as the Queen Dowager Maria Pia of Portugal is an aunt of the Italian king; while the Vatican is anxious over the situation and the possible effect it may produce on Spain.

English Warships Rushing to Scene

GIBRALTAR, Oct. 5.—The British cruisers Newcastle and Minerva sailed from here today, steaming at full speed for Lisbon.

Great Britain May Seek to Protect King Manuel and Queen Mother Amelia

LONDON, Oct. 5.—There is a possibility that Great Britain will use its good offices to secure respect for the persons of King Manuel and the Queen Mother Amelia of Portugal from the revolutionaries who are reported to be in control of Lisbon.

State Department Officials Expected Revolution to Sweep Over Portugal

WASHINGTON, Oct. 5.—The revolution in Portugal has been expected by state department officials as such an occurrence was indicated by reports of the American ambassador representative at Lisbon who has kept in touch with the situation. Discontent was in evidence everywhere and rumors of plots were thick throughout the country.

Plot was revealed. Four months ago the arrest of an influential Republican named Coello revealed a revolutionary scheme and resulted in courts of inquiry being held in various segments of the Portuguese army with the arrest and imprisonment of many men. Cordeiro confessed he had been employed by a group of revolutionaries in the army and had been on the line.

Safe and Efficient

Convincing Testimony from a Prominent Physician and Surgeon as Dr. Bernard Lazarus Cannot Be Combated

Dr. Bernard Lazarus in an interview at his home, 20 West 65th street, New York City, said: "In vital importance to maintain a certain degree of systematic stimulation most essential to health is usually resorted to it in children and alcoholic beverage very proper nevertheless caution due to the purities is contained. However I can impartially state tonic Duff's Pure Malt Whiskey to the almost entire absence of mental and nervous conditions in children and adults. I do not hesitate to prescribe it as a valuable medicinal agent where TONICITY and STIMULATION are required. Dr. Lazarus is a member of the medical staff in Bellevue Hospital and also formerly medical officer at Hart's Island, Department of Correction.

Duffy's Pure Malt Whiskey

Doctors of all schools in all parts of the country have prescribed Duffy's Pure Malt Whiskey for many years. They agree that it is the best tonic stimulant and aid in the system that is weakened and run down. It is an absolute pure distillation of malted grain grain care being used to have every grain thoroughly malted, producing a liquid food, tonic and stimulant requiring no digestion, in the form of medicinal whiskey. It makes the blood feel young and keeps the young strong and vigorous. Used in hospitals are recognized as a family medicine everywhere. You should have it in your home. It will do you good.

CAUTION.—When you ask your druggist, grocery or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark, the Old Chemist, on the label, and make sure the seal over the cork is unbroken. Price \$1.00 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctor's advice and an illustrated medical booklet containing testimonials from physicians and patients and common sense rules on health, both sent free.

BIG BATTLE IS RAGING IN STREETS

Loyal Troops Surrender to the Revolutionists When Called. On to Fight.

PARIS, Oct. 5.—An official communication issued today says:

It is confirmed by information, private but sure that a revolution has broken out in Lisbon that bombardment of the city has commenced and that Tuesday night King Manuel was still in the royal palace resisting revolutionists.

Portugal since yesterday has been isolated and circuitous reports declare that the country is in the throes of a violent revolution. All of the Portuguese navy and a part of the army are reported to have deserted the monarchy and to have cast their lot with the revolutionists.

RAISE REPUBLICAN BANNER.

The Portuguese warships shelled the royal palace while land forces, after desecrating fighting in the streets, dragged on the royal standard and raised the banner of the republic.

King Manuel is said to be a prisoner in the palace.

Though a revolution peaceful or accomplished with violence was not expected it is generally believed that the immediate cause was the assassination in the capital of Professor Bombarda, the republican deputy and chief of the Liberal league by a lieutenant of the army.

FEELING AGAINST THRONE

So intense was the feeling against the throne that this incident, comparatively trivial in itself, was sufficient to start the outbreak.

Portugal following the example of Spain has been imbued in recent years with a strong anti clerical sentiment and the governmental program included a revision of the statutes of the religious orders.

President-elect Francisco de Paula, recently arrived in Lisbon and last night a grand banquet was to have been given him by King Manuel. According to the Brazilian president must have been a witness to scenes similar to those of 1888 in Brazil when the Portuguese empire in that country was overthrown ending the imperial family to leave Brazil and a provisional government under Fonseca, the father of the present president elect, was established.

ANTI MONARCHICAL PLOT.

Evidence of the activity of those who aimed at the overthrow has been found in the city of Lisbon. On September 29 the police raided a bomb factory and arrested a dozen persons. This action was said to have followed the discovery of a widespread anti-monarchical plot with ramifications throughout the kingdom.

Imparolal an official organ of that time declared the government was prepared to crush the revolt mercilessly. Following the discovery of the bomb factory there have been arrests almost daily among medical students who were members of a secret revolutionary society with branches in the Lisbon Medical School and the University of Coimbra.

COMPLICATES SITUATION

The government's action against the Clerical also complicated the situation. Following the expedition of results from the monarchist at Alde Fontes Spanish priests known as Morillas who had settled in various parts of the country established convents and monasteries were ordered out of the kingdom and their establishments closed by authority of the law of 1892 which permitted the establishment of religious orders only for charitable and educational purposes.

The Portuguese unrest, which had gradually increased since the discovery of plots to overthrow the monarchy and set up a military dictatorship or a republic was intensified by a series of strikes among the workers and a strike of 20,000 men stopped work at Porto and rioting followed. The strikers seized railroad trains and threw out of the freight cars and burned the cars of bales of wool. Municipal guards regiments of infantry and cavalry were dispatched to Porto and a fight between the strikers and soldiers took place. The strikers were injured.

The Republican movement which resented the assassination of King Carlos and the Crown Prince Jose Philip of Braganza in 1908 grew in strength and to elections of last August added material to the Republican membership in the Chamber where the Republicans quota had been trebled during the last three years.

GOVERNMENT SEES DANGER

When the new Cortes assembled the government saw the danger of the Liberal cabinet being overthrown and September 26 Parliament was adjourned until December 1 in order to keep absolute power in the hands of the cabinet and live over a troublesome period, but more particularly because the government realized that its majority was too small to withstand any attack from the coalition forces.

The whole Liberal press including the Republican even applauded the government's action in expelling the friars and confiscating the convents and monasteries and other valuable properties.

Peasants Are Now Marching Into The Capital, Deserted by Royalty

MADRID, October 5.—Advices received here tonight from Lisbon are that King Manuel and Queen Mother Amelia have left Portugal on a warship for England, that the revolutionists have triumphed and that a republic has been proclaimed amid the wildest enthusiasm.

Rumors have reached this city that 8000 armed peasants have entered the Portuguese capital. It is reported that the revolutionary flags are not flying over the royal palace at Lisbon, but only on the Portuguese warships in the Tagus river.

Foreign Governments' Fail to Communicate With Their Representatives in Portugal

LONDON, Oct. 5.—The admiralty received a brief wireless message today confirming the news of a revolution in Lisbon but giving even fewer details than the press dispatches of last night. Upon the receipt of this message orders were sent to Gibraltar for the dispatch to Lisbon of British cruisers to watch British interests in the possible some country. The cruiser Newcastle which has just reached Gibraltar en route to China proceeded today to Lisbon and was followed by the cruiser Minerva.

Beyond the wireless message received by the admiralty the foreign office has no word of the revolution.

The Portuguese legation here is with out official advice. Acting however on the news dispatches the baron de Savary, Portuguese minister to Great Britain called at the foreign office early today and had a long conference with Sir Edward Grey, the foreign secretary.

King Manuel Flees to Brazilian Warship For Safety From the Revolutionists

LISBON, Oct. 5.—The Portuguese ministry announces that it is virtually certain that King Manuel and Queen Mother Amelia have fled to a Brazilian warship. The revolutionists had taken control of the city and the king and queen mother were reported to have fled to a Brazilian warship.

War Vessels Join in Revolutionary Movement

PADAJOS, Oct. 5.—Travelers from Portugal who reached this city today say that great outbreaks occurred at Lisbon and Porto following the assassination of Prof. Bombarda, the Republican deputy.

The people interpreted the assassinations as a political crime. After an inquiry by the police between the revolutionaries and the police troops were called out but a portion of them deserted. The warships anchored in the river Tagus at the south of the city, also joined the revolutionary element.

Spanish Republicans Decorate Buildings

MADRID, Oct. 5.—The members of Spanish Republican clubs and circles decorated their buildings today in celebration of the revolution in Portugal. The situation in Portugal has alarmed the Spanish government which will adopt the strictest precautionary measures to preserve order in Spain.

RESUME TRIAL OF L. L. BARNARD

After a continuance of several days the trial of Leslie L. Barnard accused of embezzlement was resumed this afternoon in the criminal department of the Superior Court. Hon. A. B. Sperry of the Sperry Flour Company from whom the prisoner is accused of stealing about \$50,000 while employed as its bookkeeper in the Oakland office was a witness today for the prosecution.

Revolution Was Expected in London

LONDON, Oct. 5.—To those who have followed affairs in Portugal the news of the revolution did not come as a surprise. For some weeks telegraphic news from Lisbon has been received but many letters from correspondents at the Portu-

Man Hunt in This City Leads Oakland Police Close on Trail of Criminals

Investigation of the mysterious actions of the two dynamiters who hired the launch Pastime to transport the explosive from Grant to the place from which it was afterward taken to Los Angeles and used to blow up the Times building during the afternoon and evening of Monday, September 26, may lead to a discovery of just what part was played by Oakland in the conspiracy against General Otis and his property. The fact may be brought to light that the dynamiters had their headquarters in this city, and should this be proved it will lead to important disclosures in the hunt for the assassins now being conducted by every city on the Pacific Coast.

It was at first believed by Captain of Detectives Petersen that the two men came to Oakland September 19 made arrangements for the launch returned September 20 and took the launch, returning it at noon September 26 and then left Oakland. It has now been proved that they were in Oakland prior to September 19 and that, though the launch was returned to Douglas Burrows and 12 Howard Street at noon September 24, the two conspirators were still in Oakland at 4 o'clock the same night. What the two dynamiters had been doing from noon to night is the subject of investigation by Oakland sleuths today. It is possible that they had a headquarters in Oakland and that the whole plan was mapped out and engineered from this city.

BOARD STREET CAR.

From private sources Captain Petersen has learned that the two plotters were seen loading a coal-fired car about 1 o'clock the evening of September 26. He refuses to state in what direction they were going, merely admitting that he is investigating what they had been doing up to that time and where they went thereafter. Should the clue on which he has been working in this matter prove as fruitful as he hopes, considerable light may be thrown upon the identity of the plotters and the events leading up to the Los Angeles tragedy.

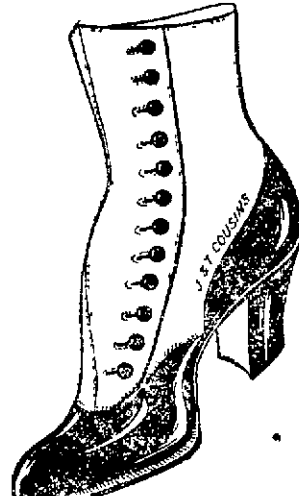

BULBS HAVE Arrived

SOUTH OF STATE

The Revolution in Portugal.

The overthrow of the monarchy in Portugal is the outgrowth of conditions which antedated the crowning of King Manuel, who seems to have had little voice in the administration of his own government. The extravagances of King Carlos loaded the country with debt and imposed unbearable tax burdens on the people. When he was murdered in his palace it was not with intent to change the existing form of government, but to rid the Portuguese nation of a dissolute and worthless ruler who appeared to have no other ambition than to squander the public revenues in riotous living.

Manuel, the boy king who ascended the throne made vacant by the assassination, appears to have been little more than a puppet in the hands of his ministers. He was both harmless and helpless. He was surrounded by ambitious and turbulent men who were unable to agree on any settled policy and who were unable or unwilling to sink their personal resentments and ambitions to unite in a common effort to restore prosperity and tranquility to an impoverished and distracted people. He did not possess the talents of a mediator and was not strong enough to enforce obedience. He was used by some and in peril from those who could not use him.

Added to the complications resulting from national bankruptcy, official corruption and confiscatory taxes levied in accordance with an unjust and antiquated system, was a religious conflict less violent than the one raging in Spain, but equally as bitter and relentless. The king's government did not please the clerical element; and a strong republican party threatened to abolish the monarchy and establish a republic. A faction of the clericals designed to depose Manuel and elevate to the throne another member of the House of Braganza known as Miguel, the pretender. Thus Manuel was threatened by two conspiracies having directly opposite objects in view. One wanted a king more loyal and obedient to the church, while the other wanted no king at all and a more radical policy in dealing with religious questions. Both sides played on the popular discontent provoked by oppressive taxation and a land system that stifled the energies of the people.

It appears that the republican element is in power for the moment. The boy king has been deposed and a provisional government established. This government claims to be republican, but it is not, being merely a cavalier having control of the army and the national treasury. This cabal has seized the reins of authority by force, and no man can tell what the outcome will be. The Portuguese peasantry are miserably poor, overtaxed and mostly uneducated. They are tenants of grasping landlords, and their miseries arise more from a bad fiscal system and an oppressive landlordism than from actual misgovernment. They are orderly and industrious, and if treated half decently are intensely loyal. But until the land and tax systems are reformed there can be neither peace nor prosperity in Portugal. The disturbances are all fomented by men who are partly responsible for the condition of the country; men who are capitalizing the miseries and wrongs of the poor to further their own ends. What the people really need, what they really want is a reform of the existing system, not a change in the form of government. They want justice and an opportunity to develop. Unfortunately, the factionists now contending for control of the kingdom do not give much promise of betterment. It is power, not reform, that they want, hence the revolution is likely to be the beginning of more disorder and public misery.

The Springfield Republican says the New York Republicans nominated a Roosevelt ticket or a Taft platform. The combination is a good one. Since the Saratoga convention was held Republican confidence has been restored and Democratic confidence greatly weakened. The Bourbons are not boasting so loudly now that they will sweep the Empire State, and in other States there is a new note of encouragement in the Republican ranks.

Watsonville Apple Festival.

The Pajaro valley, the greatest apple-growing district in the world, area considered. It does not embrace a large territory, but the land is of extraordinary fertility and its adaptability for apple culture is little short of marvelous. It produces the best bellflower apples grown anywhere. They are exported to Europe in large quantities, and their superior excellence is universally acknowledged. Pippins from Pajaro orchards are of splendid flavor and are highly esteemed. Hence, each year thousands of carloads of apples are shipped to the east and Europe from the Pajaro valley.

The prosperity of the thriving and growing town of Watsonville is based on the apple industry. The inhabitants of Watsonville feel a natural pride in the orchards which make their beautiful valley famous and are the chief source of their wealth. Annually the apple harvest is celebrated as a public festival in which all the valley part cipates.

This year the apple crop of Pajaro valley is large and will yield the growers a heavy profit. The little city of Watsonville is bustling with business activity, and there is rejoicing throughout the valley. The orchards are yielding a golden harvest in which everybody shares.

Watsonville's apple festival will be a great event this year. It has been widely advertised and crowds are expected from Oakland, San Francisco, San Jose and all the bay region. There will be a magnificent display of olden fruit and the town will extend wide open hospitality to all visitors. Today a delegation of Watsonville citizens are visiting Oakland in an effort to advertise their festival and the orchard industry. They are entitled to a warm welcome. Everybody in Oakland eats Watsonville apples—no better can be found in any market—and it will be an enjoyable outing to attend the festival in honor of the king of fruit.

THE TRIBUNE comments the visitors from Watsonville to the hospitality of Oakland. They come from a good town on a good mission. Their apples are the finest in the land and we will guarantee that they will give everybody who attends their festival a royal good time. Visit Watsonville and see where the best apples grow. It will do your heart good and afford ocular proof of California's varied and wonderful resources.

A headline in the San Francisco Call says the dynamite plot (the plot to blow up the Los Angeles Times) was hatched in Oakland. The only evidence to support the statement is the fact that the men who had the dynamite made had a launch in Oakland to transport the explosive away. This by no means proves that the plot was hatched in Oakland or that Oakland men had anything to do with the conspiracy. It is a distance to this city to advertise abroad as the home of assassins and dynamiters. We do not believe the Call had any intention of doing anything of the kind, but its careless headlining had that effect nevertheless. The natural presumption is that the plot was hatched in Los Angeles, but it was necessary for the conspirators to get the dynamite up here. They found Oakland a convenient place to get a launch—that is all, apparently.

"ONE SIDE, PLEASE!"

—PHILADELPHIA NORTH AMERICAN.

A False Theory Explodes.

It is within the range of possibility that Mexican revolutionists may have blown up the Los Angeles Times in revenge for the position the Times has taken in regard to the conspiracy formed to effect the overthrow of President Diaz, but the theory is not a plausible one. It appears to have originated with persons anxious to divert public sentiment from the natural object of suspicion.

The revolutionary cause in Mexico could in no way be advanced by blowing up the Times. The great mass of Mexicans do not know there is such a paper published as the Los Angeles Times, and would attach little importance to it if they did. And, then, there is the bomb placed under the house of F. J. Zeandelaar, secretary of the Merchants and Manufacturers' Association—it was part of the same lot that blew up the Times. What grievance did the Mexican revolutionists have against Zeandelaar? Why should they want to blow him up?

No, the Mexican revolutionist theory is hardly tenable. It does not even invite speculation. It has not fooled the public a particle, has not been considered seriously by people who really desire to unravel the mystery and bring the guilty to punishment. Each fresh development tends to show that the conspiracy to blow up the Times was plotted months ago and that it engaged the attention and activities of men in several cities, was abundantly financed and organized with close attention to detail. The conspirators had a special brand of high explosive manufactured for the occasion, and took many precautions to conceal the purpose for which it was to be used.

If the Southern Pacific wharfing franchise is to be framed to fit the wishes of Ross Morgan, the Council can save time by incorporating in it a proviso that Mr. Morgan shall be City Engineer. Such a provision will expedite matters and obviate much captious criticism.

EDITORIAL PARAGRAPHS

TODAY we have the showers of GOOD and the blasting storms of FATE—what we have today we call our own, TOMORROW is all in darkness and we, fearful and hopeful, wait for what it may bring to us.

MAN can stick if he WILL, but he will QUIT if he don't know HOW to tackle the hard job, the man who would quit is not a whit better than the man who won't begin—the quitter and the stayer win.

THE SUCCESS door swings open upon the hinges of LOYALTY, your loyalty is shown by the POISE and POWER you exhibit in your work—you will to win.

IF you would be CLEVER you must use LOVE as the LEVER with which to lift the load from your brother's back, you will learn that LOVE is the main road to happiness while HATE is but a side track to hold your wrecked mankind.

YOU can't charm or fascinate other men with your SUPERFICIAL KNOWLEDGE if you but build your every fancy into your favorite WHIM you will find that you sink while others swim in the great sea of life.

PRETENDED CULTURE is but a VULTURE that feeds on the carrion of its own IGNORANCE, you will find in them who make the HIGHEST CLAIMS, men with the lowest AND MEANEST AIMS.

NEITHER the DUGOUT nor the PALACE have anything to do with our HAPPINESS, he who is happy in one will be happy in the other and unhappy in either he would be unhappy anywhere and everywhere.

IN every controversy between YOU and your NEIGHBOR there is the INNOCENT third party that you have both failed to consider in your failure to use the golden rule you may run many.

It man see more of struggle in life than he does of smooth sailing then is the power of evil more to him than the power of good, THE DIVINE in man creates STRENGTH out of every STRUGGLE and shapes his ends to peace.

BE glad to see your COMPETITOR succeed and you will thus CULTIVATE A VIRTUE in yourself that will carry you to your own success—kill out envy and you put in love.

NATURAL LAW IN SPIRITUAL WORLD

By ALBERT W. PALMER,
Pastor of Plymouth Congregational Church.

"There is also a spiritual body"—I Corinthians 15:44

Twenty-five years ago Henry Drummond wrote "Natural Law in the Spiritual World." Under the teaching of Darwin and his co-workers the world has just awakened to the mighty laws governing the evolution of organic life. Evolution is a law of nature, and it is a law of the spiritual world as well as of the material world. It is a law of growth, of development, of progress. It is a law of the soul as well as of the body. It is a law of the spirit as well as of the flesh. It is a law of the mind as well as of the matter. It is a law of the life as well as of the death. It is a law of the beginning as well as of the end. It is a law of the whole as well as of the part. It is a law of the universe as well as of the individual. It is a law of the eternal as well as of the temporal. It is a law of the infinite as well as of the finite. It is a law of the absolute as well as of the relative. It is a law of the perfect as well as of the imperfect. It is a law of the true as well as of the false. It is a law of the good as well as of the evil. It is a law of the beautiful as well as of the ugly. It is a law of the just as well as of the unjust. It is a law of the pure as well as of the impure. It is a law of the clean as well as of the unclean. It is a law of the holy as well as of the unholy. It is a law of the righteous as well as of the unrighteous. It is a law of the merciful as well as of the merciless. It is a law of the kind as well as of the unkind. It is a law of the gentle as well as of the harsh. It is a law of the sweet as well as of the bitter. It is a law of the soft as well as of the hard. It is a law of the smooth as well as of the rough. It is a law of the clear as well as of the cloudy. It is a law of the bright as well as of the dark. It is a law of the light as well as of the shadow. It is a law of the life as well as of the death. It is a law of the resurrection as well as of the burial. It is a law of the glory as well as of the shame. It is a law of the honor as well as of the dishonor. It is a law of the praise as well as of the blame. It is a law of the reward as well as of the punishment. It is a law of the blessing as well as of the curse. It is a law of the peace as well as of the war. It is a law of the love as well as of the hate. It is a law of the joy as well as of the sorrow. It is a law of the hope as well as of the despair. It is a law of the faith as well as of the unbelief. It is a law of the charity as well as of the envy. It is a law of the kindness as well as of the cruelty. It is a law of the meekness as well as of the anger. It is a law of the patience as well as of the impatience. It is a law of the gentleness as well as of the harshness. It is a law of the self-control as well as of the lack of self-control. It is a law of the purity as well as of the impurity. It is a law of the innocence as well as of the guilt. It is a law of the righteousness as well as of the iniquity. It is a law of the holiness as well as of the uncleanness. It is a law of the perfection as well as of the imperfection. It is a law of the completeness as well as of the incompleteness. It is a law of the fullness as well as of the emptiness. It is a law of the richness as well as of the poverty. It is a law of the strength as well as of the weakness. It is a law of the power as well as of the impotence. It is a law of the victory as well as of the defeat. It is a law of the triumph as well as of the defeat. It is a law of the conquest as well as of the loss. It is a law of the gain as well as of the loss. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. It is a law of the addition as well as of the subtraction. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. It is a law of the addition as well as of the subtraction. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. It is a law of the addition as well as of the subtraction. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. It is a law of the addition as well as of the subtraction. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. It is a law of the addition as well as of the subtraction. It is a law of the increase as well as of the decrease. It is a law of the growth as well as of the decay. It is a law of the expansion as well as of the contraction. It is a law of the extension as well as of the limitation. It is a law of the enlargement as well as of the reduction. It is a law of the multiplication as well as of the division. GEORGE A. DAVIS CALLED BY DEATH

Nestor of San Francisco Merchants Succumbs at the Age of 93 Years.

SAN FRANCISCO, Oct. 3.—George A. Davis, aged 93 years, founder of the Golden Rule Bazaar and one of the oldest merchants of San Francisco, died at his home in this city yesterday.

Davis was the father of seven children. He is survived by nineteen grandchildren and by thirteen great-grandchildren. The sons of the dead man are prominent in business in this city. Eugene Davis stands at the head of the Walstock-Lubin Company and Andrew Davis occupies the positions of secretary to the Emporium and secretary to the Merchants' Association.

GRANDSON'S PROMINENT.

Among the grandchildren prominent in this city are Major Sidney S. Pelkott and Eustace Pelkott of the Columbia Park Boys' Club, Ernest Pelkott, an artist, Edgar Pelkott, an attorney, and Doctor Jessica Pelkott of the faculty of the University of California.

George A. Davis was born in England nearly a century ago, but was brought to this country at such a tender age that he always regarded himself as a native-born American. His parents went first to Virginia when he was but six months old.

FOUNDED BIG BAZAAR.

Davis came to San Francisco in 1874, founding soon after his arrival the Golden Rule Bazaar, which has been run since by the Davis family. Davis was one of the first business men to rebuild on Kearny street after the great disaster in 1906.

During his life, which was nearly a century in length, Mr. Davis was singularly free from illness. It is said that he has never been sick in his 93 years of life. Death was due to old age. The funeral will be held today.

You Can Interest Him

Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the buoyancy and vigor of twenty-five. He is freed from the ashes and pains he enjoyed in early years, and he very naturally desires with interest and eagerness the improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest organ must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man, woman and child, but every one who would secure good health, good blood, strong nerves, to have a stomach which will promptly and thoroughly digest what is eaten, because blood, nerves, brain tissue on every other constituent of the body is entirely the product of digestion, and a medicine or health food can possibly create pure blood or restore shaky nerves when a weak stomach is regaining its normal function and the food of the body from the source of fermenting half-digested food.

No, the stomach itself wants help and in no round about way other than direct, unobstructed assistance, such as is given by one of our Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because they give the stomach a chance to rest and recuperate. Dr. Stuart's Dyspepsia Tablets contain digestive elements sufficient to digest 300 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation and the food of prepared foods and new fangled breakfast cereals simply makes matters worse as dyspepsia which is the cause of the trouble.

As Dr. Bennett says, the chief reason a man can't eat is because his stomach is diseased. It is not a matter of quantity, but of quality. A man who is diseased in his stomach is like a man who is diseased in his lungs. He can't breathe, and he can't eat. The same is true of the stomach. It is diseased, and it can't digest. The result is a man who is weak, nervous, and run down. The cure is simple. It is to give the stomach a chance to rest and recuperate. That is what Stuart's Dyspepsia Tablets do. They give the stomach a chance to rest and recuperate. They give the stomach a chance to rest and recuperate. They give the stomach a chance to rest and recuperate.

BUY AND SEND AWAY SOME PANAMA-PACIFIC POSTALS

Facsimile of postal cards to be used to boost Panama-Pacific Exposition in San Francisco.

Millions of official Panama-Pacific Exposition postal cards are being distributed throughout the state to be mailed by every loyal Californian to the congressmen in the East and Middle West, and to every relative and friend of the senders who may be able to bring any influence to bear on a member of the national law-making body, urging the claims of San Francisco as the site for the great exposition.

Every congressman from the Atlantic coast to the Rocky mountains and north of the imaginary line that divides the North and South will be bombarded with these postals and the appeals of their constituents. If Californians do their duty.

Southern congressmen will not be subjected to this avalanche of argument, as it is recognized that they are bound to support New Orleans, just as western congressmen are bound to support San Francisco; but for the rest there will be no escape.

IDEAL SOUVENIRS.

These post cards are of attractive design and aside from their merits as arguments in favor of San Francisco as the exposition city, will be treasured as souvenirs of California, whose varied and beautiful scenery is pictured thereon in many colors.

The design is a reproduction of a section of the Panama canal with a vessel steaming between its banks. On one side a grizzly bear sprawls at the foot of California, represented by a maiden. On the other is a stalwart workman, dinner pail in hand, who carries across his shoulder his shovel. The card carries the following request:

"Get your congressman to vote for the Panama-Pacific International Exposition at the Exposition City—San Francisco, 1915. California guarantees an exposition that will be a credit to the nation."

ALL MAY HELP.

The assistance of every man, woman and child in California in making the post card campaign a success, is requested by the publicity committee of the Panama-Pacific Exposition. The post cards may be obtained from every chamber of commerce in California, or from exposition headquarters in the Merchants' Exchange, San Francisco. The senders may supplement the arguments printed on the cards by brief descriptions of the wonderful climate and exhaustless resources of California and the magnificent enterprise and energy of the people of San Francisco—the people who have built a splendid and beautiful city at a cost of more than \$300,000,000 in four years—or the cards may be mailed without comment, just as they are printed.

NEWS OF THE OIL FIELDS

OIL MEN STAMPEDE TO BIG LOST HILLS STRIKE

New Fields Give Promise of Adding to Fame of Petroleum Output in State; Big Contract Is Signed

LOS ANGELES, Oct. 3.—An exceptionally rich strike which may prove to be the start of a new oil field has been reported at the extreme southwest end of the Lost Hills range. Oil of 22 gravity has been found in wells 500 feet deep. Vague rumors of the strike have been in circulation for some time past, but the present report is from a man who visited the well and saw the oil.

At least four productive holes have been drilled with light portable rigs and cased with stoppage casing. All these have produced from 100 to 1,000 barrels a day.

Ten more rigs are in the field. Among the operators are the Associated, Martin & Indley, the Lake Shore people and two or three others. The Lake Shore is about five miles from the swamp. It is well as drilled about 500 feet deep and the oil rose forty feet from the surface.

FEVERISH INTEREST.

Interest in the whole Devil's Den district has leaped forward and in the last two days it has reached almost a fever heat. Due to the fact that the old locations in the district were chiefly made by parties from Visalia and other points in the north and north-central, they grew more rapidly there than here.

In the last few days, however, hundreds of Kern County oil men have either visited the Lost Hills in person, or have seen the pictures and the reports, and many are returning from there yesterday evening declaring that the rush surpasses the rush to the Elk and Buena Vista hills last winter. One man reported no less than 150 teams on route to the vicinity of the Lake Shore strike, some of them loaded with well drilling materials.

LAND TAKEN UP.

Most of the land in the district was located before the withdrawal orders, and on much of it the assessment work has been done. These claims are being taken up eagerly by operators, and property is being sold forward to oil men. The Associated Oil Company was among the first to get busy in the new field, and yesterday several teams were sent out to take up land and drilling rigs. It is one of the heaviest rigs in the field, which indicates that the rush surpasses the rush to the Elk and Buena Vista hills last winter. One man reported no less than 150 teams on route to the vicinity of the Lake Shore strike, some of them loaded with well drilling materials.

TRANSPORTATION RESTRICTED.

Distance from the railroad and the lack of transportation have held back the development of the territory. But the Associated and Producers' Transportation Company's pipe lines have been built.

ASTHMADOR

A GUARANTEED REMEDY FOR ASTHMA

SOLD BY ALL DRUGGISTS ON THE MONEY-BACK PLAN

Refund Your Money without question if it fails to benefit you. R. Schifmann Co., Proprietors, St. Paul, Minn.

GREAT AMERICAN IDEA GREAT 'THE MELTING POT'

Walker Whiteside Rises to Greatness in Play That Sounds New Note in Problems of the Races.

By LEO LEVY.

Tremendous in its theme, preaching without being preachy; declaiming without ranting; teaching without making itself obnoxious, "The Melting Pot," written by Isaac Zangwill and presented last night by Walker Whiteside at the Macdonough Theatre, will be among the one or two stage products that will be considered when judgment is passed on the Great American Play. Zangwill saw deeper into the race problem than anyone had before him when he constructed "The Melting Pot," a dramatization of the races of the world in the making of an American is the American idea and it took an old world person to see it.

PLAY MAKES ACTOR.

One can well understand why a new theatrical star, shone a Broadway, New York, when Walker Whiteside first gave "The Melting Pot" to the public. Imbued with the greatness of the thing he could do nothing less than the greatness of the thing. He felt and felt what Zangwill saw on Ellis Island, in the ghetto, down deep in the slums. He knows as well as the audience that the water are feeding men and women into the "crucible," to be melted over.

Which will explain why Walker Whiteside, middling romantic actor, became Walker Whiteside, star, over night. The American Idea brought out slumbering greatness.

ENTHUSIASTIC RECEPTION.

Whiteside and his support were accorded an enthusiastic reception at the Macdonough last night. This after the high level that Zangwill set and never sounds a false note.

HAS LOVE STORY.

Vera Revendal, daughter of a Russian baron, meets the young Jew, David Quixano, an interest in his work and his ideas springs a love to the man. The two meet at the home of David's uncle, Mendel Quixano, their lives ripen quickly, ready to be cast aside and they become engaged. The love for the Gentile girl, and the old-time Hebrew prejudice drives David from his home.

In the third act, by a coincidence, David is given her time to work among the people of the slums. David meets her father and in him sees the "butcher" who drives his men when his family were slaughtered on that Easter day at Kishinef. The "river of blood" comes between David and Vera and they are separated.

It goes well, however, in Act IV, David's American sympathy has been produced and he is proclaimed a great composer; the "river of blood" runs dry and he and Vera are united.

BUT BARE OUTLINE.

That is the bare outline of the thing; to tell more is a task one hesitates to handle. The Jew-Gentile intermarriage problem is a subject for treatment and the stage, not for a review of the "melting pot."

MAUD BERLI ASKS FOR SEPARATION

Actress Says Husband Failed to Contribute to Her Support.

Alleging that her husband had deserted her more than a year ago and since that time he has not contributed to her support, Maud E. Berli, actress, today asked for a divorce from her husband, Frank Moulton, comedian, at the Superior court yesterday. Maud Berli, who has been married to Moulton for three years, said she had taken a vacation of three months and returned to find her husband had deserted her. She said she had been married to Moulton for three years and that he had been a comedian for many years. She said she had been married to Moulton for three years and that he had been a comedian for many years. She said she had been married to Moulton for three years and that he had been a comedian for many years.

CANDIDATES UNIONIZE TO STOP "HOLD-UPS"

STOCKTON, Oct. 3.—What is without doubt the most unique union ever organized was formed here yesterday when all of the county candidates on both the Republican and Democratic tickets entered into a compact not to make any donations to individuals, charitable organizations and other "hold-ups" practiced in political campaigns. The candidates say they are forced to buy tickets, make contributions, give alleged loans, and are otherwise blackmailed to such an extent that they cannot keep within the bounds of the money they are allowed to spend by law. By organizing a protective union they will also not pay for music, meetings, furnish any refreshments, and at least one meeting throughout the county will be eliminated by both parties. This move has caused much mourning among the hangers-on in each ward and around the headquarters.

COWBOYS SHOOT UP LITTLE ARIZONA TOWN

GLOBE, Ariz., Oct. 3.—In a burst of phyness a number of cowboys from Pinal county invaded the town of Williams, near here, Sunday night and in the absence of the sheriff "shot-up" the town in approved style. Lights were broken and barrooms cleared, but the cowboys' reign was short and so far as can be ascertained by the authorities here no one was injured. The affair will be investigated.

of the crucible" must be portrayed by flesh and blood men and women, not with the typewriter of a newspaper writer.

UPHOLD REALISM.

Dora Davidson is Mendel Quixano, and Hubert Wilke, Henry Pappelermeister. They uphold the realism of the piece with characteristics that are far above the average. Quixano, Davidson, is played by Robert Whitworth; Baron Revendal by Will D. Corbett; Kathleen O'Reilly by Alice May.

Louise Muldner as Frau Quixano deserves more than passing mention. She is the typical old-world Jewess, aged by custom and not years and with every characteristic and mark of the Hebrew who was torn away from the beloved fatherland, but who refuses to be Americanized.

PICTURE IS TRUE.

A true picture of Jewish home life has never been drawn by pen artist than has been given by Zangwill in "The Melting Pot." He knows his Hebrew does this playwright, knows him because it is in his blood and sympathies.

"The Melting Pot" will explain many things in the racial problem that you have never understood. Jew or Gentile be what you are, you will be a better one after seeing "The Melting Pot."

FINCKE TELLS COURT HE WILL PAY IN FULL

NORFOLK, Va., Oct. 3.—The case of Captain W. C. Fincke of the navy, charged with embezzling \$5000 in government funds, was continued by United States Commissioner Stephen S. Lord, Oct. 10.

Fincke, who is a native of California, declared he would settle in full if given a reasonable time. He denied he was an absconder.

WASHINGTON, Oct. 3.—The arrest of Captain Fincke resulted from a report made to the navy department by Rear Admiral Helmer, supervisor of naval authorities. He told the department officials that he had reason to believe there was a shortage in the collector's funds.

The masters of collectors are appointed from civil life and are given \$5000 bond and are given \$5000 for the upkeep of the vessel, drafts on which are made up to them after the regular inspection and checking up.

ITALIANS IN PANIC FOLLOWING SHOOTING

DALLAS, Tex., Oct. 3.—Following an attempt of "black hand" Sunday to shoot Vito Genovese, an Italian merchant, and the killing Monday evening of Carolyn Eleanora, the eight-year-old daughter of Joe Blanco, and the wounding of the latter, Italians in Dallas are in a panic. The police are trying to run down the assassin.

Genovese has a broken ankle, caused by a pistol bullet. It is the second attempt on his life within a few months. A shotgun and pistol were thrown on the floor and his little daughter by two men, who escaped in a buggy.

Hard thinking tears down manual labor

and, not realizing that three hours of close application to "big things" and details destroys more tissue than a day of hard labor, men and women become old at forty.

Pabst Extract

made from rich barley malt and choicest hops, is a predigested liquid food of highly restorative body and brain building value, being a source of new strength, greater energy, stronger vitality and higher ambitions.

The United States Government has officially recognized Pabst's Extract as a healthful and a healthful beverage.

Order a dozen bottles from your local druggist.

Insist upon it being Pabst.

When asked if a woman had ever contributed to her support, the actress replied that she had sent her two clerks, but had stopped the payment on both of them. She said it was thoroughly understood that she was never coming back to her, although nothing was ever said outright at it.

Maud Berli was married to Frank Moulton in Chicago in September 20, 1907. For several years they were considered one of the most devoted couples on the stage. Up to the time of Moulton's desertion, it was believed their domestic life was perfect. For the last few months, Miss Berli has been living at the Charlesworth apartments in this city.

Mrs. Mary E. Berli, also known as Mrs. Fulton G. Berli, mother of the actress, took the stand as corroborating witness. She said she had not the least intimation that her son-in-law contemplated leaving his wife until he had actually gone.

No alimony was a bed for. It was understood that all property rights were settled out of court.

Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

HEART-TRIBUNE'S PAGE FOR WOMEN--HOME

WOMEN'S SOCIETY

MISS DAISY L. SEULBERGER of this city and Hugh O. Pierce of Placerville will be married tonight at the home of the bride's parents, Mr. and Mrs. J. Seulerberger, on Athol avenue. In the presence of half a hundred close friends of the family, at 8:30 o'clock the Rev. Charles Brown of the First Congregational Church will read the marriage ceremony in a bower made of maidenhair and pink carnations.

The bride will be robed in white satin with an embroidered chiffon overdress and will carry a shower bouquet of lilies of the valley.

Mrs. Carl Seulerberger, as matron of honor, will wear her wedding dress of white satin with silver trimmings. Miss Clara Dabney will be the only bridesmaid and is to be gown in pink and blue.

After the wedding journey the couple will make their home in Placerville. Mr. Pierce is the son of Mr. and Mrs. George Pierce, the former of whom is county treasurer of El Dorado county. The bride has a host of friends in this city and the bay region and has been the motif for numerous affairs during her pre-nuptial days.

FIREBAUGH-VINCENT WEDDING.

Miss Viola Vincent became the bride of Charles L. Firebaugh last night at a home wedding at the home of the bride's parents, Mr. and Mrs. C. D. Vincent, 10 Linda, Vista terrace. Rev. Charles R. Brown, pastor of the First Congregational Church officiated. Autumn leaves and yellow chrysanthemums were effectively arranged throughout the room, while palms and profusion of foliage were used in the reception hall.

The bride was gown in heavy cream-colored satin, elaborated with lace and pearl trimmings, and made after the Empire fashion. The groom wore a well-tailored suit of blue serge and carried a shower bouquet of lilies of the valley. The ceremony was followed by a reception in the breakfast room, which was decorated in autumn leaves and chrysanthemums.

J. C. McKinstry attended as best man, and Joseph Haber, Ralph Lachman and Arthur Conley were the ushers for the evening.

Mr. Firebaugh is a graduate of Stanford University and a member of the Delta Upsilon fraternity. The bride is a former Stanford student and was identified with the Kappa Alpha Theta society. After the honeymoon Mr. and Mrs. Firebaugh will make their home in San Francisco.

OVER WEEK-END.

Miss Kate Bennett will spend the week-end at Port Costa as the house guest of Mrs. John McNear.

Mrs. P. E. Rowles will return from the East next week. Miss Amy Rowles is planning a longer stay but will arrive here in time to take an active part in the early winter festivities.

NOVEMBER MARRIAGE.

Miss Ruth Sackett, whose engagement to Roy Wyatt was an announcement of the early summer, will be married the latter part of November. Miss Sackett is one of the most feted of the Alameda belles.

BRIDGE CLUB.

Mrs. Edward Engle of Sheridan avenue was hostess of this week to a group of friends at her little home. Bridge was the game of the afternoon. Among the matrons who make up the personnel of the club which meets informally every fortnight are Mrs. William Havens, Mrs. Burr Eastwood, Mrs. Robert Neuell, Mrs. Harry Maxwell, Mrs. Louise Allender and Mrs. William Knowles.

BRAYS TO MOVIE.

Mr. and Mrs. Robert Augustus Bray will give up their Piedmont home and are planning to spend the winter at the Fairmont Hotel. Henry Adams and his family will occupy the Bray home while Mr. and Mrs. Bray are away.

SERIES OF RECEPTIONS.

A series of unique receptions which is creating much interest in local social circles is that which Congressmen and Mrs. Joseph Russell Knowland are planning at their home in Alameda. The first affair will take place Monday evening, October 17. More than 20 cards have been issued and it is expected that the affair will be a success.

Will Marry Girl He Saved

READING, Pa.—The engagement of Charles L. Hall of this city and Miss Gertrude O'Brien of Buffalo, N. Y., was announced here. The wedding is to take place in October.

Mr. Hall was a total stranger to Miss O'Brien until several weeks ago, when he rescued her in a runaway accident. It happened in Buffalo.

SUFFRAGIST LEADER TIRES OF JOB.

NEW YORK.—Excitement prevailed at the headquarters of the New York State Woman's Suffrage Association when Mrs. Edith H. Crosssett, for eight years its president, refused to stand for a reelection.

Mrs. Crosssett declined renomination in favor of the vice-president, Mrs. Harriet May Miles.

The opposition ticket is headed by Mrs. Frank J. Smiler, the corresponding secretary.

"There is absolutely no ill feeling in my part about anything or anybody," said

MISS DAISY SEULBERGER, who will be married tonight at a prettily-appointed wedding to Hugh O. Pierce. —Schwarz, Photo.

done and appointments will be elaborate in every detail.

A score or so of the nearest friends of Mr. and Mrs. Knowland will assist in receiving their guests. The "at home" will take place weekly until the departure of the Knowlands the latter part of next month for Washington, D. C., where the Congressman must attend the opening of the National Legislature.

A large number of the most exclusive among Oakland's prominent matrons will attend and the affair promises to be one of the most brilliant among the season's festivities.

Mrs. Knowland is noted for her charm as a hostess and her social tact and unusual personality endear her to a wide circle of friends in California and the cities of the East.

Mrs. Florence B. West of East Lynne, Va., mother of Miss Knowland, is being the recipient of much attention by the friends of her daughter. She has made many warm admirers during her sojourn on the Pacific Coast and was the guest of honor recently at the elaborate reception at which Mrs. J. C. Neesham, assisted by Representative Neesham, assisted in receiving more than 100 guests at the Knowland mansion.

The departure of Mr. and Mrs. Knowland will be deeply regretted in the bay cities, where they are leaders in the social whirl.

MISS ALICE ALBRIGHT, HOSTESS.

Next Tuesday afternoon Miss Alice Albright will entertain a coterie of friends in her Fruitvale home who meet every two weeks for a game of bridge.

The engagement of Miss Albright to Frederick Farnum was announced some time ago. The wedding will take place in the late winter.

ENGAGEMENT ANNOUNCED.

The engagement has been announced of Major Frank Winn, U. S. A., to Miss Kathleen McCord, of Milwaukie, in which city the major has been stationed for the last two years. The announcement is of keen interest to a large number of residents in Oakland, where several years ago he was married to a local belle, Miss Dora Winn, since her mother's death, has lived with her grandmother, Mrs. Boardman, of San Francisco, and is a member of the younger society circle in that city.

Major Winn was the aide-de-camp to Lieutenant-General Arthur MacArthur for several years and has held high honors during his career in the army.

RETURNS FROM ABROAD.

Mrs. H. Bateman, of this city, who has been abroad for the past six months, has returned home. Her sister, Mrs. A. Merle, of Alameda, with whom she has been traveling, will not arrive at her home in the Emerald Reading.

Halt was planned under the home and his leg was broken. He was taken to a hospital. Miss Le Free visited him there.

The bride is a daughter of Theophilus Le Free, a wealthy brewer, and is a musician. After the wedding the pair will live at Wye-on-Sand, a suburb of Reading.

Mrs. Crosssett. "It is merely that the condition of my health does not permit me to assume so much responsibility."

"The organization has grown from a very small one to a very large one. I don't think it was years ago when I first became president."

"Now it is a real big business to be in charge of and I felt that under the circumstances it was necessary for me to refuse the candidacy for the good of the cause."

Mrs. Crosssett appeared before the resolution committee in behalf of woman's suffrage in Rochester two years ago.

Pastor, Near Ruin, Refuses to Reveal Marriage

ST. LOUIS.—The story of the sacrifice by Rev. J. C. Schindel of Kansas City, Mo., probably is unparalleled, even in fiction, and shows what won on gasps in a church can do. Rather than reveal the facts concerning a youthful wedding, which he held secretly and late, he permitted himself to be torn from his church, insulted and unforgotten and revealed on all sides.

Reading the burden of his grief in silence, he was forced through illness, brought on by the treatment accorded him, to seek refuge in a hospital after his name had been linked with that of a "mysterious woman," whom gossiping parishioners openly accused him of having relations with.

His story never would have been told and he probably would have gone to an ignominious death unknown and unwept, except for this same "mysterious woman," who is his own daughter.

Although he was willing to bear his burden through the love he still bears for her mother, Mrs. J. Schindel, the daughter, refused to permit the stigma on his name, and herself told the story of her "relations" with him.

Dr. Schindel reluctantly confirmed her statement, but gently chided her for the revelation.

MET AT PENNSYLVANIA.

Twenty years ago Dr. Schindel was a student at the University of Pennsylvania. Here he met, loved and married his daughter's mother. The ceremony was a secret one. Not even the closest friends were apprised of the marriage.

After a short-lived, blissful honeymoon, the domesticity was, for reasons never revealed, shattered, and Dr. Schindel turned toward the ministry.

Until shortly before the death of her mother the daughter did not know the identity of her father. The mother's last breaths whispered the name to her, and she sought him out.

He in the meantime had married again and accepted the Kansas City call.

The second Mrs. Schindel knew of the former marriage, and stood smilingly by her husband's side during his ordeal, keeping her promise to him that she would not reveal his secret.

The daughter, however, refused to permit her father to wear the stigma and tears of a misdeed standing congregation, and made known the truth.

TALK OF APOLOGY.

Dr. Schindel is convalescing and there is talk of a public apology to him, Mrs. Schindel and Mrs. Reynolds. He has not indicated how he will receive the proposed amends.

They are to be held on November 16, January 18 and February 15. The patronesses or the series are Mrs. Charles Williams, Mrs. Henry Martinez, Mrs. William Roeder, Mrs. Charles M. Gayley, Mrs. Sidney Smith, Mrs. Benjamin Ide, Mrs. J. C. Neesham, Mrs. Harry Glass, Mrs. Willard Page, Mrs. Harry Alston Williams, Mrs. Neil Woodworth, Mrs. Edward Clark, Mrs. Clinton Day, Mrs. A. I. Radston, Mrs. Wilson, Mrs. E. O. Luschner, Mrs. A. M. Sutton, Mrs. John Snook.

Upon his departure to his new post in the Far East, he was accompanied by Madame Pastor, who spent several months very delightfully among the haunts of the Flower Kingdom. But as is invariably the case with American women of the higher type, no amount of social success abroad could undermine in her heart her love for her own country, and as the result of a prolonged hemo-

physis she returned during the early summer. "No matter what else our life in China may lack," said Madame Pastor the other day, "it is certainly not to be wanting in variety." One portion of our time is spent in Bangkok, which has been bathed in a tropical sun all the year round. During the remainder we are at

NEW YORK.—One of the most accomplished of American women in international society, Madame Luis de Pastor y Mora, wife of Senor Pastor, Spanish minister to China and Siam, has been spending the summer in New York and the resorts of the East.

Madame Pastor is a niece of Dr. Edmund Jennings, of Philadelphia, and is related to the du Ponts, of Delaware. She was Miss Constance Cazenova Lee, of Virginia, and married Senor Pastor four years ago when he was Spanish charge d'affaires at Washington.

Upon his departure to his new post in the Far East, he was accompanied by Madame Pastor, who spent several months very delightfully among the haunts of the Flower Kingdom. But as is invariably the case with American women of the higher type, no amount of social success abroad could undermine in her heart her love for her own country, and as the result of a prolonged hemo-

physis she returned during the early summer. "No matter what else our life in China may lack," said Madame Pastor the other day, "it is certainly not to be wanting in variety." LONDON.—A 10,000 mile journey from Chicago to the Arctic regions, traversing Canada from the southern boundary to the northernmost, mainly on foot, horseback, and in bullock wagons. Such is the record of Miss Agnes Deans Cameron, the intrepid lady explorer, who is in London at the moment of writing for the purpose of giving a lecture. A quiet, sweet-faced, middle-aged lady, Miss

Cameron's feat ranks as one of the most remarkable accomplished by the steadily growing band of women explorers, who vie with men in discovering new wonders of the world.

Many an exciting incident happened during her 10,000-mile trip. On one occasion she had to traverse over 100 miles of rapid, and narrowly escaped drowning through her boat's capeling. She

passed through where no woman had previously trod, discovering unknown tribes and unheard-of sources of wealth.

The story of Miss Cameron's career is exceedingly interesting. She was born in Victoria, Vancouver, and like most girls in the colonies, was brought up to do something to earn her own living. This she did as a school teacher, and presently she became a book-mistress, ultimately turning her attention to journalism.

Another daring feat of Canadian exploration was carried out by one of Miss Cameron's countrywomen—Mrs. Leonidas Hubbard—in 1905. It was a journey across 600 miles of unexplored Labrador. The hardships of this journey can be better understood when it is explained that Mrs. Hubbard's first husband perished in an attempt to accomplish the journey. With a couple of companions he had pushed into the utterly barren country, where provisions gave out, and the party were faced with starvation.

Mr. Hubbard was the first to collapse, and his companions, leaving him in a tent, went in search of food to a provision depot which they had previously established. They got back too late to save Mr. Hubbard's life.

Two years later Mrs. Hubbard decided to undertake the work upon which her husband had set his heart. Fearing opposition, she kept her intentions secret, setting out with three Indian guides and an Eskimo boy. It was her near appearance which led to the report of her death, but ultimately she returned after passing through some thrilling adventures.

"What do you suppose would be the first effect of a law giving the woman the right to vote?"

"The abolition of the practice of searching women for concealed valuables at the New York Custom House," Chicago Record-Herald.

ST. LOUIS.—John A. Howland, a live safer, after regaining for a second his helmsman's bride of a month, formerly Miss Helen O'Brien, was confronted by a startling obstacle in the shape of a young woman living in Philadelphia just as he was about to obtain the blessing of the church upon his elopement.

After three days of plots and stratagems, in which he was assisted by friends eager to make the course of true love run smooth, Howland believed he saw happiness and reconciliation with his wife's family within his reach. He had met Mrs. Howland twice, once on an automobile trip, and yesterday afternoon at the home of Michael C. H. Aronides here.

Mrs. Howland engaged to meet him and accompany him to St. Mark's Catholic church, Page and Academy avenues, to ask the Rev. Father Peter J. O'Rourke's blessing upon their marriage, which had been performed by a Protestant clergyman.

Instead, he was met at the rendezvous by Miss Gertrude O'Brien, his wife's sister and ally, and the good angel of her troubled romance. Miss O'Brien was weeping and said that her sister was prostrated at her home because of information which had reached her.

Howland was informed by Miss O'Brien that Father O'Rourke had received a vehement and passionate letter from a girl in Philadelphia, who asserted that she had a claim upon the handsome young swimmer.

Together Miss O'Brien and Howland went to the Aronides home. Howland described the charges made against him as "black falsehoods," and begged her to assure Mrs. Howland of his innocence.

"My sister could not meet you," said Miss O'Brien, "because the letter shown to her by the priest had prostrated her. She said for me to tell you that she still loves you, but that you must clear yourself of the accusations."

Her 'Thirst to Kiss Him' Was Burning

Chinese Women Charmed Her

MME. LUIS DE PASTOR Y. MORA. Photo by Harris & Ewing.

Pekin, 2000 miles to the north, with many bleak, wintry days as reminders of the vagaries of my home climate.

"I met many delightfully interesting native women in China, and I felt particularly charmed and flattered by the attentions offered me by the wives of the imperial princes in their own homes. Nothing could surpass the display of Oriental pomp and brilliancy with which these entertainments were surrounded. Yet, amid all his gorgeous hospitality, I was received by my delightful hostesses with a courtesy so simple yet dignified that I carried away from their presence the conviction that in manner, at least, the western world suffers greatly by comparison with the east."

"I may add that this is an opinion in which my husband's association with Chinese princes and statesmen causes him heartily to concur."

Madame Pastor made the journey back to the United States for 9000 miles by the Trans-Siberian Railway. During the coming winter she will resign Senor Pastor by way of the Pacific route at Hongkong and proceed with him to Bangkok, where he goes to present the papers of recall to his predecessor. In Bangkok Senor Pastor and his attractive consort will be the guests of the king of Siam at his palace.

"I beg you take me, I would be to you as a sister to a brother. I don't agree to have no come to see you, beloved, it just means that you don't love me at all."

"I send you burning kisses." The last letters are written in Paris. In these the writer says:

"I would do everything to make you happy. Believe me, beloved, nothing will be refused you, and I would do all that it will be possible for me to do in order that you may be happy with me."

NEW YORK.—William English Walling, millionaire, author, Socialist and settlement worker, husband of Anna Strunsky, the noted Russian authoress, and grandson of William H. English, of Indiana, who once ran for vice-president of the United States, has decided to summon to the Supreme Court Miss Anna Bertha Grunspan, a French girl, to compel her to tell where, as she alleges, Walling promised to make her his wife.

Walling expects to prove to the court before trial that the young woman's claim of \$500,000 damages is without basis and he will prove this by exhibiting a large bundle of letters which Miss Grunspan penned to him while they were good friends.

According to Miss Grunspan's complaint, Walling was engaged to her at the time of his marriage to the Russian authoress.

Walling says he met Miss Grunspan in Paris five years ago and that he befriended her when she came to him and begged him to intercede for her brother, who had been arrested as a revolutionary in St. Petersburg. It was because he succeeded in freeing him, Walling's lawyer says, Miss Grunspan became infatuated with the American millionaire.

TO BE NEAR HIM IDEAL.

One letter Walling says he received from Miss Grunspan reads:

"To be near you and never to leave you would be the absolute ideal. It is true that I have no right over you. You are my benefactor and my superior. That is so. It is my duty to submit to you will and not you to mine."

Then follows a letter written to Walling July 13, 1905. In this Miss Grunspan says:

"... but now you are so far from me, and no more think of her who loves you, of her who has a thirst to kiss you. I know you don't love me, you had boy, unfortunately, I can't say the same, for I feel a charm when you are at my side."

"I ought to say you do me nothing but good, but I cannot, for every time that I receive a letter in which there are those words, 'I will not permit any one to love me I do not wish to love,' that gives me vertigo, makes me indifferent to everything and everybody around me."

There is a letter dated "Paris, autumn, 1906." This is one of the longest written by Miss Grunspan. In this she writes:

"Thank for your warm and cruel letter that I just received. You appeared to love me a little, but now that you have left me to travel a little, you want to abandon me forever. I don't reproach you for it—oh, far from that!"

"I don't think of you, and I love you always as much as ever, not madly, but sincerely and affectionately. How kind you are, beloved."

SECOND FATHER TO HER.

"You have been a second father to me and also a cherished friend, good and sincere, frank and intelligent. You know how to win me, or at least, you have inspired me. You have helped up over me your attentions and caresses; you know how to make yourself loved; do not believe that you are cold. You don't need to defend yourself. There is no harm in loving, in being a man who to have a few sensible feelings toward a woman. What I don't adjust on your part is that you won't admit that a young girl like me suffers when she loves."

"You know better; that a young girl goes wrong because he whom she has loved has left her and remains away from her, and she must not do forget suffering—these life or death?"

In a letter dated London, January 6, 1906, the writer says:

"I beg you take me, I would be to you as a sister to a brother. I don't agree to have no come to see you, beloved, it just means that you don't love me at all."

"I send you burning kisses." The last letters are written in Paris. In these the writer says:

"I would do everything to make you happy. Believe me, beloved, nothing will be refused you, and I would do all that it will be possible for me to do in order that you may be happy with me."

RELIEF TRAINS GO TO SCENE

When the news of the wreck reached St. Paul on special relief trains were ordered to the scene. The dead were taken to O'Fallon and the injured to Granite. The injured, and Bern died en route to the hospital.

A nurse came and met the relief workers when they arrived at the scene and the bodies were taken to the hospital. The bodies were taken to the hospital with many patients sent to the scene of the wreck. Bern was taken to the hospital for help while pinned beneath the car.

The relief train was G. H. Chubbuck, a relief train arrived at the scene of the wreck. With three hours after it occurred and immediately took the bodies to the hospital and the assistance was given to the farm of the victims who brought mattresses and other things to the hospital and the relief train for the living and to remove the dead.

In eighteen months ago the Illinois state had the unusual disaster of a train wreck. The relief train, through

A critic justly points out that the nine Pacific Coast States with an area as large as sixteen States in the Union, with enormous natural resources and immense wealth have a population not quite that of the State of Ohio, an only half that of the State of New York, proving that the development of the Pacific Coast States particularly California, is not progressing as rapidly as it should. The answer to this is clear. A strenuous effort must be made to utilize the wonderful resources by inaugurating manufacturing enterprises and to do this it is necessary to appeal to the loyalty of our citizens that they have no right to assume the superiority of the eastern or imported goods until they have rested the local

The movement lately inaugurated with such success by the Home Industry League of California and which places before the citizens of California the advisability of buying goods of home manufacture is one that appeal to every loyal Californian, because at the completion of the Panama canal it has been estimated that we will have 5 000 000 population. Therefore it will be necessary to find means of employment for them. The development of the ranches and orchards of the State it is true will give some employment, but where one ranch or farm employs two to ten men one factor would probably employ a hundred. In the light of this fact it is up to us to develop and stimulate our manufacturing industries. We have the cheap fuel and the raw materials we have the cheap labor and we have the enterprise in California to do all of these things and more, but unless we receive the co-operation of the citizens in the purchasing of Home Goods we cannot succeed. Our citizens should see that the articles which they purchase are made in California. By so doing they will greatly help in the work that the Home Industry League hopes to accomplish.

Many of our Californians are unaware that two of the first milk canning plants in the United States are only about one hundred miles apart from each other. The Hollister, San Benito county, and Gonzales (the western section of the Salinas Valley) Monterey county, are operated by the Alpine Cattle and Horse Raisers' Association. The location of the farms is particularly adaptable for milking owing to the moderate climate and wind and air are decided factors in the successful management of the Alpine Cattle Company has done much to aid in fostering Holstein herds in the district to which breed our state has for quite awhile paid particular at-

Alpine Milk, familiarly known as "A Native Son and The Kitchen Ma-gician" is milk evaporated and preserved entire in butterfat and solids by means of sterilization. Preserving milk without the use of sugar was first con-ceived by Mr. John B. Meyenberg, a German Swiss. He failed however to convert his staid countrymen to this notion and came to America where the United States Government granted him patent rights on this method in 1883.

Mr. Meyenberg's lifelong experience in canned milk plants is a most valuable asset in this industry and he is today the president of the California State Alpine Evaporated Cream Company.

There are a legion of brands of canned milk on the market today and the perplexed housewife who would point out that Alpine is milk from California, that it is made in California, that it is our home state and giving employment to Californians and that Alpine is not a "foreign" product, is doing the Government standard but so easily exceeds the same in richness and purity.

Thousands of cases of Alpine for the army and navy, and sent abroad to feed hungry soldiers and sailors, were as fresh and sweet as in our home refrigerators.

It is a fact that an appetite for Alpine milk will visit the factories of Alpine Evaporated Cream Company any time. It is the most reliable and perfect appointment will delight you. Remember California boasts of the finest milk and the requirements of the Pure Food Law.

Alpine Evaporated Cream Company
37 Market Street San Francisco

An excellent illustration of what may be accomplished by manufacturing products of the highest quality and by publishing in the leading newspapers of the world the many special merits of such products is to be found in the wonderful success achieved in the manufacture of an article which has attained to world wide celebrity and is utilized countless because of the universal satisfaction which it affords.

It starts with an advertising appropriation of less than two hundred dollars monthly in the United States to make known to the world the merits of a product of the highest quality. It broadens its list and extends its advertising until the present time when it has been published in the leading newspapers of the world and is usually by the company for advertising in all the leading newspapers throughout the world. We know it as California Fig Syrup Co. which is engaged in the manufacture of that wonderful laxative and cathartic known as California Syrup of Figs and which has been so widely known and appreciated that it has received the general approval of the medical profession as well as the favorable judgment of many millions of families in its country of origin and in all the other countries of manufacture the globe part of the blue flag of California is formed into a shield and is placed on the front of a vehicle for the very best official and sufficient laxative and cathartic principle known to the world. The product of Senna produced in all its perfection by the original process of the pharmacy of the great French chemist learned and specially trained chemists who devote their entire time to its production.

It is a product which has been so common and paid large salaries to devote their entire time to the selection of the best material and the production of the scientific manner in order to maintain the absolute purity and uniformity and quality of the product.

Some of the reasons for the excellence and value of California Syrup of Figs and Elixir of Senna are: 1. The purity of the material. 2. The scientific manner of the production of the product has been based upon the scientific organization of the leading countries of the world as has been officially recognized.

A beautiful complexion is every woman's birthright but the use of strong soaps and exposure to the sudden changes of temperature so characteristic of American climate destroys the natural softness of the skin

Every woman wants a clear soft velvety skin—the kind that comes with youth and youthfulness.

Carmelita Cream freely absorbed nourishes the tissues and stimulates the skin to clearness, the pores and capillaries to eliminate the impurities and to insure the development and preservation of a perfect complexion.

Carmelita Cream is prepared on scientific principles by a new process that eliminates the usual greasy and pasty ingredients which are so objectionable in most preparations known as cosmetic creams. Carmelita Cream is a necessity as well as an ideal accessory to every woman's toilet table.

Carmelita Cream is manufactured by the well known house of Coffin & Redington whose policy has a ways been to give the greatest value possible and to make the most of the money they receive. Carmelita Cream is sold at the price the market affords regardless of price.

The fact that Carmelita Cream has the reputation of a house insured to the public in its quality.

Mrs. Housewife, Don't Break Your Back Over Those Carpets—Let Us Show You What the Wonderful Suction Cleaner, the "Little Giant," Will Do for You.

(Incorporated)

One of the special features of the exhibition is the demonstration of carpet cleaning by the American Faucet Company. The machine made by them is San Francisco's home product in every sense. It cleans everything in the house: carpets, polished floors, walls, furniture, curtains, pictures etc. and so it so thoroughly that dusting is a thing of the past. The dust that always settles on every thing is cleaned off by the machine, carefully wiped up, all collected and deposited in the dust bag within the machine.

The machine is mounted on ball bearing fold-out casters and is easily moved about in the house.

It is attached to any electric light socket twenty feet of silk cord and twelve feet of hose being regularly supplied with each machine.

The machine is simple, strong and durable, having the advantage over all other cleaners that it will not get out of order and annoy you. The only moving part is the motor to which the fan is rigidly attached.

The machines are put out on trial and are fully guaranteed. Manufactured by The American Faucet Company, 327-533 Filson street, San Francisco.

See the "Hill Grant Suction Cleaner in operation at the Home Production League Exhibition." A cleaner that cleans and will wear for years.

Jersey Milk An Eastern Name, but a California Product—Jersey Means the Best in Cows and Jersey Milk Is the Best Milk Made—Give Us One Trial.

REMEMBER THE NAME

JERSEY MILK

Better Than Eastern Products in Every Respect.
Sales Increasing Daily.

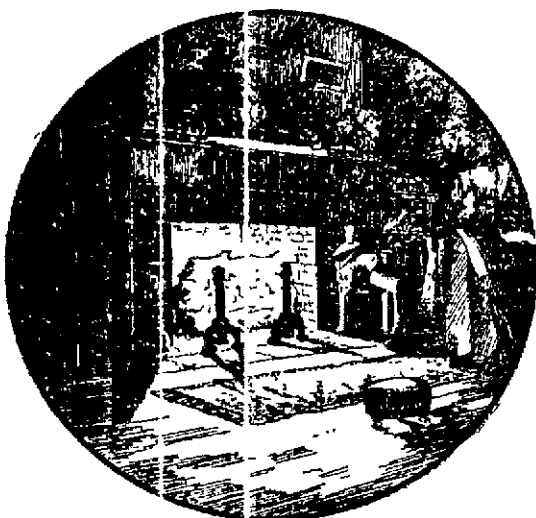

What is the Jersey Evaporated Milk made of and how is it made?

Jersey Evaporated Milk is two parts of good milk evaporated down to one part. This is as great an evaporation

as is possible, owing to the fact that when it is processed or sterilized, it is made richer, it will coagulate. The government pure food law requires it to contain 7.7 per cent butter fat, therefore manufacturers adopt an 8 per cent richness.

California's cows are out doors the year around and are therefore more healthy and produce a better milk than in the East, where cows are stalled the greater part of the year. Our dairies are on the ocean front, in Sonoma county, near Tomales Bay where the temperature rarely goes above 75 degrees.

GAS AS A FUEL

has its advantages and disadvantages. All other gas burners, either for cooking or heating, consume the oxygen of the air of the room, which leaves the air of the room foul. They cause the gas to rust all metallic fixtures, destroy all fabrics, tinting and decorations, and are a menace to health, as they fill the room with carbon monoxide, one of the most poisonous of gases. On the other hand, gas is the most cleanly of all fuels and

with instant results; a labor and money-saver to the housewife. No fires to build, no wood or coal to carry, no ashes or soot to take care of. Every heat unit is utilized whereas in wood or coal fires 75 per cent of the heat is lost in the flue. There is only one gas burner that absolutely overcomes these objections to gas, while retaining all its advantages—The McGeorge & Cooper Pure Air Gas Burners and Logs and Coal Grates.

A New California Product

Arabalene, the wonderful liquid face powder, now being so extensively advertised, is one of the home products that we can justly be proud of. It is less than one year since Arabalene was introduced to the public, and it has grown in popularity and sales until now it is one of the best-selling toilet articles on the market. This result was obtained by the Arabalene Company distilling over 1,000 trial packages. The use of Arabalene will give the complexion a clear, delicate, transparent appearance of youth. It is irrefragable when used according to the directions and will take the place of

face powders as well as nourishing the skin. Arabalene will prevent weathering from any cause. Arabalene is for sale by all druggists in Oakland or San Francisco, and all the large cities on the coast. Try this truly meritorious home product, and if you like it, boost it and your share toward making California the great manufacturing State she deserves to be.

CELSCO
is not a patent medicine, but a scientific prescription which relieves headache, fatigue and sick stomach.

It is prescribed by physicians because of its safety for women, children and invalids.

You'll like Celso. It is good for sleeplessness, restlessness, nervousness, and stomach and headache.

These are ordinarily caused by indigestion and are frequently accompanied by gas belching, abdominal soreness and "heartburn."

Manufacture Neckwear.
L. Samter & Sons are the largest manufacturers of neckwear west of New York. They manufacture a complete line of neckties that retain from 25 cents to \$1.50.

Samter & Sons started business on the coast eleven years ago and have by their enterprise and sterling business policies built up a tremendous business. They occupy an entire building of five stories and have employment to over two hundred and fifty men.

They make the only guaranteed black necktie on the market today, known as the Tri-Dye. The brand Tri-Dye means that the silk is dyed three times in the year before being made up.

L. Samter & Sons are the only manufacturers in the West authorized to use the famous genuine "Susanna" bangleline. Ask for Tri-Dye. L. Samter & Sons are worthy of your patronage.

Our Aim—California to be self-supporting.

Attractive booths of the American and Pacific Coast Biscuit Companies.

What Is White Diamond Water?

It is a soft water. It is absolutely free from organic and inorganic impurities. It contains an excess of free oxygen, hence has great oxidizing properties. It is free from all impurities, and has greater solvent properties than any other water. It is palatable, not flat like distilled water.

MEANS OF MANUFACTURE.

White Diamond Water is neither boiled, distilled nor chemically treated, but bacteriologically purified by electrical process, which forms ozone and hydrate of aluminum in the water undergoing treatment, destroys all low forms of animal life, oxidizes the minerals, coagulates all impurities and renders them insoluble, thus making perfect filtration possible.

The electrical action which this water receives makes it radio-active, and as such it cannot fail to alleviate all stomach troubles.

White Diamond Water is delightfully palatable—refreshing. It is not flat like boiled water. It has no odor. The last in the bottle is as fresh and pure as the first. Children soon learn to love it and cannot be induced to drink city water.

White Diamond Water is not a luxury it is a necessity. You cannot afford to do without it.

Would you deliberately use adulterated food? Do you know impure water is more injurious than adulterated food? Do you know a neglected filter is an artificial breeding place for bacteria?

Five-gallon Bottles, 50 cents

IMPERIAL LIQUID GLUE.

The Imperial Glue Company of San Francisco was incorporated on May 1 for the manufacture of Liquid Glue. Their factory is situated on the bay and is the first real attempt on the Coast in this line of business. There are several firms in the East manufacturing liquid glue, all of whom are doing well. This company taking into consideration that the coast is rapidly growing and that they are at the base of supplies, where they can conduct their business at as good an advantage as Eastern concerns, have taken it upon themselves to launch upon the market a line of liquid glue second to none in quality in the country.

All they ask is the co-operation of all local Californians to insist on the brand "Imperial" when buying glue, and if the dealer does not carry same, have him procure same from his wholesaler. By doing this the dealer will find it necessary to stock their glue and thus their goods can easily be established on the market.

Imperial Liquid Glue at present is put up in tins, ranging from 150 for one-eighth pint and up.

In the near future they intend to put out a 10c bottle and also a 10c collapsible tube.

Ask for a "Home Product" by demanding "Imperial."

GIERSBERGER WINES

forcefully illustrates the fact that the soil of California still yields a stream of wealth which, far from impoverishing it, leaves the State richer each year. The gain to California from the vine and wine industries alone aggregates twenty-five million dollars per annum, and about sixty thousand persons are directly, or indirectly, employed therein.

The Theo. Gier Wine Co.'s booth has a unique interest, and educational value, for the throng that visit the league's exposition each day, in that a wine press is displayed in operation in the manner in vogue from the dawn of civilization down to the nineteenth century.

It may not be generally known that Alameda county produces the very best grade of California wines, ranking with the best foreign products in all but price. The Theo. Gier Wine Co. holds the highest awards for its products from such exhibitions as those of Paris, St. Louis, Chicago, Seattle and Portland.

Within an hour's ride of Oakland, in the thriving Livermore valley, which for many years was satisfied to produce only hay, grain, barley, some nuts and fruit is located the Giersberger vineyard. About twenty years ago this valley became known to the world at large, when the gold medal quality of its wines, which, when displayed at the Paris exposition, and in competition with the wines produced by France herself, captured the first prize.

Many deceptions and subtleties have been resorted to by European manufacturers and producers of high-quality wines to counteract the growing popularity of California, and especially Giersberger, wines; in many instances our produce being labeled with a French brand. When this was discovered it only led to our prestige as a wine-producing section. All the leading and first class hotels and cafes in the State serve Giersberger wines.

It is an annual affair, that is anticipated with pleasure by those fortunate enough to comprise the party visiting the famous vineyards controlled by Mr. Gier in the Livermore and Sonoma valleys.

Mr. Gier is not only a progressive and liberal man, but an entertaining host on these joyous occasions.

Imperial and Obk Cigarettes Manufactured by the John Boliman Company of California—One Trial Is Sufficient—Buy Where You Make Your Money.

The John Boliman Company, manufacturers of Imperial Cigarettes, were established nearly 40 years ago. They have grown to their present enormous proportions in the output of their products through the quality of the cigarettes made. Theirs has always been a home industry and now is worth \$10,000 a year to the local community and a million dollars a year to the Pacific coast.

Pure Carbonated Apple Juice

C. C. C. Brand

ABSOLUTELY PURE
MADE FROM
FRESH APPLES ONLY
VINELAND, CALIF.

Our product is made from seasoned stock of sound, ripe apples. After passing through the crusher and press, it is forced through silver-lined filters and led into porcelain tanks, where it is carbonated and then bottled and pasteurized.

In the sealed package the goods will keep indefinitely. After once opened, unless kept on ice, it should be used within a few days.

There is absolutely no alcohol nor preservative in the product. As a dietetic aid for rheumatism it has no equal, as it is healthful for both young and old; no home should be without it.

Prices at all grocers are 25c per quart, or \$2.75 per dozen quarts; and 15c per pint, or \$1.65 per dozen pints. Be sure to demand the C. C. C. Brand.

CALIFORNIA CIDER CO.,
West Berkeley.

PURE AIR RANGE AND GRATE

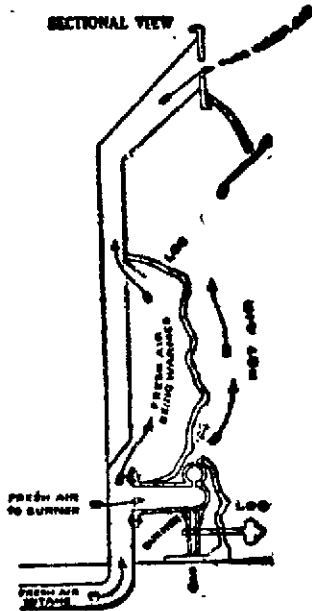

New invention makes the use of gas grates a delight instead of a nuisance. Anyone who has sat in a closed room with an ordinary gas grate burning will appreciate this fact. Remember the headache you had due to the stilling atmosphere you had to breathe when the old gas grate consumed all the oxygen in the room.

The Pure-Air Hamilton Range and Grate Co. of Oakland are putting this new invention on the market. The corporation is financed by local capital, the goods are manufactured here and the invention was created from the brain of a local man.

Gas has been demonstrated to be one of the cheapest fuel known and its convenience for heating and cooking is undeniable.

Now that the "Pure Air" gas invention overcomes the consumption of oxygen, so objectionable in the old burners, the popularity of this method of heating and cooking will increase tenfold. The oxygen necessary for perfect combustion is supplied from the outside by means of a pipe connection. This pipe also supplies air to a heating chamber formed around the combustion chamber, by means of a double back, spaced apart, whereby a current of fresh air constantly flows warm air into the room without using any of the room's oxygen supply.

The Hamilton Pure-Air Gas Grates may be cheaply and conveniently installed in any home and it will certainly pay anyone who desires comfort with warmth to look this up.

A Feature of the Big Show

"I may be green, but I am not green enough to buy an Eastern made cracker." So exclaims the parrot in front of the Standard Biscuit Co.'s booth, thereby proving that a parrot sometimes has a sense of that famed bird of wisdom, the owl.

Why not help support the State that supports you by buying crackers manufactured here? The products of the Standard are as good, and in many instances better than the Eastern line and the prices are the same. Remember these facts when next ordering from your grocer.

ALAMEDA

REPORT ON HEALTH IN SCHOOLS IS SUBMITTED

Everybody loves music—and especially a song when it is sung in a sweet Italian singer's voice. Street singers have been appearing in vaudeville for years, and always a welcome addition to any bill. Well, this week there is a trio who are making a tremendous hit with their songs. They are picturesquely costumed, and their melodies on beautiful sweet stringed instruments play a rare delight. Solo and concert numbers are rendered, but all agree that the best of the evening is the dancing numbers they excel. There are so thoroughly a part of the melodies that it is but natural for the strong high water mark to be all things musical.

WHEAT MARKET

TURNS EASIER

Contrary Reports Effect the
Chicago Grain
Market.

CHICAGO, Oct. 8.—Many cable messages from

vances, crop prospects were better than for the previous year, although rain was much needed in two provinces. In consequence, the market here, after an initial advance, turned easier. According to one dispatch, the west and south parts of Argentina were in excellent condition and the north fair, notwithstanding reports yes-

higher to $\frac{1}{2}$ ¢ to $\frac{3}{4}$ ¢ lower, with December at 97 $\frac{1}{2}$ ¢ to 98 $\frac{1}{2}$ ¢, a loss of a shade to $\frac{1}{4}$ ¢ at $\frac{1}{2}$ ¢ to $\frac{3}{4}$ ¢. The market was quiet, with a few sales, but no failure to 97 $\frac{1}{2}$ ¢.

Foreign cables, indicating some deterioration in Argentine crop prospects, led to liberal buying and caused a sharp advance. Many shorts covered, and the market advanced to 98 $\frac{1}{2}$ ¢ to 99 $\frac{1}{2}$ ¢, a gain of 98 $\frac{1}{2}$ ¢ to 98 $\frac{3}{4}$ ¢, a net gain of $\frac{1}{4}$ ¢.

Corn started firm but became suddenly weak when it was reported that the Argentine sales that had been covered yesterday. December opened $\frac{1}{4}$ ¢ to 98 $\frac{1}{2}$ ¢ to 99 $\frac{1}{2}$ ¢ up at 99 $\frac{1}{2}$ ¢ to 99 $\frac{3}{4}$ ¢, a loss of $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢.

Shorts covered later on the renewed strength in the market, and the market closed $\frac{1}{4}$ ¢ to 99 $\frac{1}{2}$ ¢, with December $\frac{1}{4}$ ¢ up at 99 $\frac{1}{2}$ ¢ to 99 $\frac{3}{4}$ ¢.

Wheat at the outset were quiet, but the market fell when it was reported that the Argentine crop was low. December opened $\frac{1}{4}$ ¢ to 98 $\frac{1}{2}$ ¢ to 98 $\frac{3}{4}$ ¢, and receded to $\frac{1}{4}$ ¢ to 98 $\frac{1}{2}$ ¢ higher at 98 $\frac{1}{2}$ ¢ to 98 $\frac{3}{4}$ ¢, and receded to $\frac{1}{4}$ ¢.

An advance in provisions resulted from rising

The closing quotations were as follows:
Wheat, December, 85¢ 6-8/16; May, \$1.04 1/2;

Corn—December, 30¢@30 1/4; Mar., 38¢@38 1/2.
56¢.
Wheat—December, 83¢; Mar., 86 1/2¢.
Rye—January, 81 1/2¢; Mar., 87 1/2¢.
Barley—January, 71 1/4¢; Mar., 87 1/2¢.
Oats—January, 51 1/4¢; Mar., 57 1/4¢.
November, 51 1/4¢@51 3/4¢; January, 50 1/2¢.
Rice—October, 111.30, January, 90.42¢; May, 89.42¢.
58¢.
Wheat—Cash, 77¢.
Barley—Cash, 60 1/4¢.
Oats—Cash, 46 1/4¢@47 1/2¢; October, 46.15; March, 50.16@50.40.
Rice—Cash, 111.15; October, 81.5.
CHICAGO, Oct. 5.—Live-Corn says: It was the belief among wheat traders last night that the local shorts had been sold out. Some looked upon the move as a play on the part of certain big interest to get prices up in order to sell wheat at a profit. Some thought it was a bet that the future of prices here depends upon the Argentine news, as it is the key to the situation.

Traders who have been bearish on corn said they did not expect a material decline right.

prices were likely to work lower. They did regard the weather being wet as a bull argument

Some of the commission houses said they were advising investment buying on all weak spots

1/2
diers said that they had bought a round lot of corn at Omaha yesterday to come to Chicago the first time they have been able to buy it there

CBOT sales for the week totaled 10,000 bushels of wheat, 10,000 bushels of corn, including 15,000 bushels for export and 845,000 bushels of oats.

Newest market for export were reported from the seaboard.

GRAIN AND PRODUCE MARKET

CHICAGO, Oct. 5.—The quotations today were as follows:

| Option— | WHEAT— | PER BUSHEL | Low. | Close. |

(SAN FRANCISCO GRAIN MARKET)

SAN FRANCISCO, Oct. 5.—Wheat—Firm, no trading; cash, \$1.50/1.55.

Harley—Revd.; December, \$1.02 1/2; May, \$1.02 1/2; July, \$1.04 1/2; cash, 87 1/2.

Corn—Steady; large yellow, \$1.62 1/2; 1.65.

LIVERPOOL GRAIN.

LIVERPOOL, Oct. 6.—Broomhall says: Yesterday's market showed a firm undertone at the opening with values 3/4 higher. Support was due

On this information. Following the opening business developed and part of the advance was lost. There was some pressure in the near morning on the continuation of the rise. The market closed slightly higher, but the entire morning session with some fear expressed regarding the Argentine outlook. A mid-day rally in the market was in to lead lower than the opening and 1/2 to 3/4 higher than yesterday.

Wheat was firm at the start and 1/4 to 1/2 higher and following the opening further advanced 3/4 to 1/2. The situation in Argentina was mentioned in America. Winter cattle orderings saw an improved demand for spots.

LEVERPOOL, Oct. 5.—Sharon Hammill says

ment that Argentina was the pivot on which the market must rely for any definite change. Aside from this damage the market seems to be in a bearish position.

CROP REPORT

CHICAGO, Oct. 5.—Iowa state report: Following Iowa has a corn crop of over \$90,000,000 bushels, as estimated by the Iowa corn bulletin.

The government report last year made this crop 200,000,000 bushels. The report says: This week has been very favorable for damaged corn and the crop is practically free from any damage by frost.

There is, however, a small percentage of the corn that is planted in fields that will need another week or two weather to fully mature. With the exception of a few scattered areas where there was heavy rain late on September 28 and heat to which crops were subjected, the entire crop is well developed and ready for harvest. Most of the stalk have been filled and much more than the usual amount of corn has been put in storage. Corn was damaged considerably by the back-spring moisture, but the average yield will be above the normal and the quality of the crop is excellent.

The shortage of the hay crop has been made up largely by the excellent conditions of fall pasture. There will be less loss of cattle for this year.

WASHINGTON STREET CORNER TENTH

TAX AMENDMENT IS ALTERED AFTER LONG DEBATE IN LEGISLATURE

Words Fly Fast at Sacramento and Measure
Goes Through by Close Vote; Bank
Tax Levy Raised

By EDWARD A. O'BRIEN.

SACRAMENTO, Oct. 5.—Both houses of the legislature have adopted a perfected senate constitutional amendment No. 1, a defect in which they were called together to remedy, and which made uncertain the time at which revenue would be available under the proposed new system of taxation, separating state from county taxes.

In the assembly the passage was secured with only three votes to spare, there being 25 votes cast for the amendment, when, under the constitution, the votes of two-thirds of the assembly, or 27 in all, are required to adopt a constitutional amendment.

SUCCESS IN DOUBT.

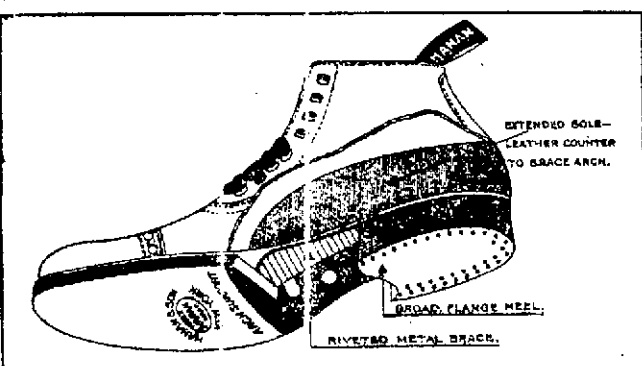

Even then, for perhaps half an hour, there was a feeling that the measure had been defeated, because, when the first roll-call was completed, there were but 25 votes in favor of the measure and 25 votes against it. There was then a call of the absentees and later a call in of the house in the attempt to secure votes enough to carry the proposition. The absentees being Bates, Lewis, Miller, Price, Roseberry, Sanford, Savage, Stearns, and others, with the exception of Price, were out of town, and for some of them Sergeant-at-Arms Lewis Martin had already

ANNOUNCEMENTS

AN OLD-TIME PRESCRIPTION

In a modern product. From the immortal sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by The Owl Drug Co., 15th and Broadway, 10th and Washington, 15th and 22d Streets.

Does Walking Hurt Your Feet?

If you are afflicted with "faller arch" or "flat foot" and have dull pains in your heels, instep and calves, you will find sure relief in Hanan's Instep Brace Shoes or men. These shoes are made scientifically with arch support, built into them to brace and support the weak parts of your foot.

HANAN'S INSTEP BRACE SHOES

FOR MEN

are fashioned to form a perfect mold in which your foot is retained in its natural position, affording you absolute comfort. Whenever the name "HANAN" appears on a shoe, that shoe is known to be THE BEST, and this is equally true of the Hanan Instep Brace shoe. There is none other that can approach it in quality, comfort or construction.

It will not fail to relieve you.

Call at any time and let our expert fitters demonstrate this shoe to you.

We Are Sole Agents

We have instep brace shoes for ladies, priced at \$6.00 and \$6.50; and also separate arch supports for men and women, to fit into your own shoes.

ROSENTHAL'S

San Francisco 151-168 Post Street. Mail orders promptly and carefully filled. Open Sunday evenings. Oakland 469-471 Twelfth Street.

SUNDAY SCHOOL HEADS TO MEET

Lengthy Program Arranged
for Annual Convention in
San Leandro.

SAN LEANDRO, Oct. 5.—Next Monday afternoon and evening have been the date selected for the annual convention of the Sunday school directors of the Eden district which will be held in the San Leandro Presbyterian church beginning at 2:30 and ending at 8:30. The following program has been selected for the day:

2:30—Devotional services by Rev. Monroe Drew, pastor.
3:45—Enrollment of officers and response.
3:00—The beginners' class, Miss Marie Hoek.
3:20—Some primary and junior blackboard lessons, Mrs. Bertha Harkness.
3:45—Conference.
4:00—Adult Bible classes and how to organize them, W. H. Brown.
4:20—Can the graded work be made a success in the smaller schools? Rev. F. L. H. Von Lubken.
4:45—Superintendents' conference, Mrs. S. M. M. Woodman and Miss Carolyn Hawley will bring the collection of English models illustrating customs in Bible lands.
5:15—Recess for greetings.
6:00—Supper, served by the Aid Society.
7:30—Inspiration services, by Rev. E. L. Hart.
8:00—Talk on the international convention, Rev. Levi Gregory.
8:20—Evangelization of the Sunday school, Rev. L. Wirt.
The officers to be in charge of the convention will be as follows: O. J. Lynch, J. M. Moore, L. H. Von Lubken and Mrs. H. Zeager.

**ACCUSED BAD CHECK
MAN ASSUMES ALIAS**

REDDING, Oct. 5.—The man in jail here on a charge of passing spurious checks is not J. O. Boyd, which name he signed to the checks on which he secured money. He took a suit case belonging to Boyd in San Francisco on admission day. Boyd is superintendent of the Bradstreet Company at Sacramento. In the suit case were check books and other papers belonging to Boyd.

The prisoner wrote an identification of himself in Boyd's check book and then began using the checks, passing them in several cities, finally landing in jail here. Boyd believes he is secured \$5000. The prisoner says his true name is Fairfield.

Chamberlain's Stomach and Liver Tablets do not sicken or gripe, and may be taken with perfect safety by the most delicate woman or the youngest child. The old and feeble will also find them a most suitable remedy for aiding and strengthening the weakened digestion and for regulating the bowels. For sale by all dealers.

MUSIC OF COLONIAL DAY AT BIG ENTERTAINMENT

Reading from left to right: MISS BLANCHE MOORE as Betsey Roso and ROBERT H. THOMAS, baritone, to take part in Colonial entertainment.

Exceptional talent has been procured for the musical portion of the colonial entertainment and exhibit to be given by the Daughters of the American Revolution and the guild of St. John's church, October 12 and 13 at Weide hall, Fourteenth and Castro streets. The program of the first evening will be opened by a piano selection by Professor Vincent Antilla, Miss Olga Sussman soprano, Mrs. Mary Gladding contralto, R. H. Thomas baritone and E. J. Post tenor, will be heard each evening. The songs have been selected and arranged to harmonize with the illustrations in living pictures of historical life of America in colonial and pre-colonial days. The music by the orchestra has been selected with the same care and interest. The trio will be made up of Miss Annelia Maytorena violin, Mr. G. H. C. Moffat cello, Miss Maria Maytorena piano. Selections: Slavonic Ruse, Sydney Smith Dawn of Love, Benedict Toccata Gavotte, Pacheco Le Secret, Gaudier Ann. Camin, Shuman Trio No. 1, Hayden 1. Andante, 2. Poco Andante, 3. Rondo All. Ogarasse, Presto Minuet from Fifth Symphony, Mozart Minuet, Musical, Schubert Romance, L. Eclair, Hayley Star Spangled Banner, Dixie. Also full dance program.

SUE FOR BIG DAMAGES.
SAN FRANCISCO, Oct. 5.—Rahmat Dillah, as administrator of the estate of Jew and in behalf of Jew and in behalf of Nal Jeevan, the widow, and Nur Mohammed, Khishin Mohammed and Nal Ahaloo, children of Jew, yesterday started suit against the Southern Pacific Railroad for \$25,000 damages for Jew's death.

The Hindu was killed while working on the railroad near Crockett, in Contra Costa county, on October 12, 1909. Alleged carelessness of the train crew in running on what is termed dangerous speed is the cause of action.

A \$4000 HOME FREE

We are giving away another bungalow. You know what that means—it means that someone of Brenner's customers will receive a valuable home. This third bungalow is located in Alton Park, between Forty-first and Forty-second streets and Telegraph avenue and Broadway.

Brenner's Oakland

CLUB WOMEN ENTERTAINED
WITH PRETTY PROGRAM

HAYWARD, Oct. 5.—Mrs. John A. Park, president of the Hill and Valley Club, of Hayward, was hostess at an entertainment at her home yesterday afternoon. Readings were given by the members on California in the early days. The program of the afternoon was as follows:

Brief history of the old California missions, by Mrs. Joan A. Park; two songs composed by W. J. McCoy was sung by his daughter, Catherine McCoy.

Mrs. John A. Park gave a reading from a book written by her mother, who is now dead, in which a vivid description of the trials of the old Franciscan fathers and their followers was portrayed.

See How the Hotel Oakland Is Rising!

The foundation had to be laid first. Well, anybody knows that.

The first story of steel work was the next move. Everybody knows that.

Beam by beam, stone by stone, brick by brick—it will, in due time, be finished.

Well, what of it? — a child knows that.

Of course.

All right, then, just imagine that the foundation was your start toward a healthy savings account. Your common sense will supply the rest.

Well, what of it?

What?—It's up to you.
